## The Capital of Nevada, Carson City

Date: 2018 Professional Peer to Peer Pages.

*Community advocate mental health resource guide for the greater good of our community !*

### COMMUNITY INVOLMENT IS KEY:

- Mental Health proactive partners.
- Addiction & Recovery partners.
- Transitional Housing partners.
- Positive Transition from incarceration back into the community

**Introducing: Those with Goals, Vision, Cooperation & Success!**

# State & Civic Pride in Action

*“Breaking down the silo effect for better outcomes”* Shaniff Khan

Cooperation & Sharing is key!

The purpose of this resource guide is to provide quick reference to key community partners and to connect with other key partners in order to assist one another in better outcomes for community members struggling with Hopelessness, Homelessness, Mental Health, Addiction, and other feelings of desperation.

Teams and partnerships have formed and have made a difference in community members lives. A Multi-Disciplinary Task Force and sub-groups have been created to address the challenges for this population.. These Task Force partners are working together to better serve our community . With this publication the Communications Committee of the Behavioral Health Task-Force would like to continue to expand and reach out further to key partners in our community and build on these successes as our community grows. This is a growing and ongoing publication and new community advocates will be added continually as we are made aware of them as they become available.

Our population is growing and so is our family of committed partners.

Thank you,
